Frontier - Specifications

THE PREMIER FRONT LOADER

Looking for new front loader technology?
It's in the hoist.

- ◆ Dual forward mount hoist cylinders provide more stability than mid mount cylinders.
- ◆ Body sides are tapered for easier and faster unloading of refuse with a lower tip to dump angle.
- ◆ Roof mounted tailgate cylinders allow for an increased body width over competitor bodies using the same chassis spec.
- ◆ Available in Full Eject Models

NEW ARM PIVOT

TAPERED BODY
